# New, Improved Design and Performance

Discover your chronotype, track your sleep and create effective bedtime routines that draw from our rich audio collection

The shape of JadaIn is inspired from the sunrise and sunset.
It quickly induces you to fall asleep well due to its tinted colors.

JadaIn is Candy-resembling shape that provides you sweet and deep sleep.

Smart Light

The Red Light Helps Your Better Sleep

Sleep Inducing Light

Lower illumination switches to sleep-inducing lights.

Motion Detection Light

The light is activated when motion is detected.

Occupancy

Absence

AI Wake Up Light

Based on 7-day sleep analysis, the alarm light kicks in automatically.

Wake - Up Light ...

CO2 Detection Alarm Light

When the indoor CO2 concentration exceeds 2000ppm, the red light flashes.

Visible CO2 Concentration...

Room Condition

Occupancy, Temperature, Humidity, CO2, Light

Sleep Diagnosis **& Reports**

You can check the overall sleep time, tossing and turning, snoring, sleep apnea, and sleep logs.

Analyzes temperature, humidity, illuminance, carbon dioxide concentration and step counts.

Sleep diagnosis and reports that are dedicated to improve your sleep quality.

Contact**less**

Delivering accurate data and an enhanced user experience via a contactless method, while addressing the limitations of uncomfortable wearable devices

Wide Range **Measurements**

- ● Detection Direction : Logo
- ● Measurement Angle : 120° based on logo
- ● Sleep Detection : 3 m (9.8 ft),

   Occupancy Detection : 5 m (16.4 ft)

Listen To My Snoring

Using deep learning algorithms, JadaIn captures and recognizes sounds while you are asleep.

While You're Asleep

Triggers an alarm when sleep apnea lasts more than 10 seconds

Another Application For My Children And Parents

| Occuppancy | Exercise | Air Quality | Temp | Humidity | Illuminance |

You can monitor the overall sleep patterns and room environment of your children and parents .

1. Connect power to the device.

* External battery compatible (4~5 days based on 20,000mAh)

## 2. If you press the button shown in picture 2 after applying the power, the blue LED will be flashed.

1   2   Blinking blue

3. Open the WiFi window and select "Jadaln". Enter the password "12345678"

4. After checking the message "Unavailable or Disconnected Internet". Ignore the message, Go to next step, 5

안드로이드   아이폰

5. Enter "192.168.4.1" in the Internet address bar (iPhone is Sagari). (Re-enter 192.168.4.1 in case of page error)

6. When the following window opens, select the WiFi you are using.

* If there is no your WiFi in the list, unplug the power and start from "1" again.

**7. Enter your WiFi password and press "connect".**

* At this time, light flashes slowly with various colors after 1 or 2 minutes, the connection is successful!

(If you enter the wrong WiFi password, you can't connect Run from scratch.)

8. Google Play or APP Store "Jadain" Scan and install.

9. Enter the serial number attached to the back of the device in the settings menu device connection succeeded!!

10. Each time you press the button shown in picture 2, you can change the color of the mood light to daylight, blue, purple, and various colors.
